4. Whenever starting downhill or merging into a trail, look uphill and yield to others.
5. Observe all posted signs and warnings. Keep off closed trails and out of closed areas.
6. Always use devices to prevent runaway equipment.
7. Prior to using any lift, you must have the knowledge and ability to load, and ride and unload safely.

Terrain Park Safety

MAKE A PLAN

Your speed, approach and take off will directly affect your maneuver and landing.

LOOK BEFORE YOU LEAP

Scope around the jumps first, not over them.

EASY STYLE IT

Start small and work your way up

RESPECT GETS RESPECT

From the lift line through the park. Inverted aerials are prohibited.

OBJECTS are closer than they appear

Be advised that all poles and/or flags, fencing, signage, and padding on equipment or objects or other forms of making devices are used by the ski area to inform you of your presence or location of a potential obstacle or hazard. These markers are not guarantee of your safety and will not protect you from injury. It is part of your responsibility under **YOUR RESPONSIBILITY CODE** to avoid all obstacles or hazards, including those that are marked.
