

Applications Now Open for

Summer Company Student Program

The Small Business Enterprise Centre (SBEC) has opened applications for this year's Ontario Summer Company student entrepreneurship program!

Students who are between the ages of 15 and 29 and are returning to school in the fall can qualify for a \$3000 grant to run a summer business of their choice, plus benefit from advice and mentorship from local business leaders.

If you know of any students interested in entrepreneurship who want to experience being their own boss this summer, have them get in touch with Michael Warchala or Dean Spironello at the SBEC (located in the Wayne Thomson Building).

Hear from two of last year's students about their experience in Summer Company:
